

**EasyMaker** uses **Artificial Intelligence (AI)** to help make Easy Read. You can try it for free to see if you like it.

In our video, Rachel from **SpeakEasy N.O.W.** tries out EasyMaker, with Holly from **Photosymbols**.

Photosymbols made EasyMaker to quickly change hard text into Easy Read. It uses easy words and pictures.

You can try EasyMaker by uploading a document or pasting in some text. You can even ask EasyMaker to write you a whole new document.

EasyMaker doesn't just make Easy Read for printing. It works on the web and mobile too. You can share your work easily with others using one link.

You can choose to read the Easy Read version, listen to the words, use Plain English, or even ask our AI assistant questions about the document.

You can try EasyMaker today to see how it works. It is free to use and explore. You will need to buy tokens if you share your work with others.
